# Feedback for our Online Course

“I have 3 students who already experienced those online courses and all 3 of them are very pleased with the quality of the courses offered. They started in January with ‘normal courses’ on campus, so, I was worried that they wouldn’t like the change. But it seems that they are enjoying their courses. They actually adapted very well, probably because it was very well organised and students were able to start their online class without difficulties. I guess this is more challenging for Teachers, students still need to focus on the Teacher. The teachers are the same ones as on campus.

It is lockdown in many countries now, so this may be an opportunity for some people to use this time to learn English from home with experienced teachers. Online courses can be also an opportunity for some students planning to come later to Manchester to try lessons and make sure they make the right choice to enrol in IH Manchester.”

**Agent Marlène Guillemaut,  
Study Concept, France**

“Yes, the platform works well and teachers are got used to. Everything goes really well!

The teachers’ lessons are really interesting and professional for improving English.

We feel more confident at speaking in front of the class and they offer us many ways to learn in the best condition !

So keep going like that it’s the perfect way  
But I prefer travel and go abroad of course !”

**Alicia, 20, Italy**

“I would take another online course with IH Manchester because I can be taught by English speakers from my room.”
